

## Integrated provision of minimum package of WASH, health and protection services

The project mainly aims to improve health services in the targeted facilities and meet the immediate needs of water, sanitation and protection for the displaced and vulnerable families in Al-Shihr district on the coast of Hadhramaut as well as Ataq district in Shabwa governorate.

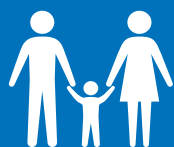

This is accomplished by providing minimum health services to the targeted health facilities in Al-Shihr district, using a mobile medical team, rehabilitating water projects and providing clean water to communities as well as distributing basic and personal hygiene kits in both Al-Shihr and Ataq districts, along with disseminating life-saving messages to the community.

From March 2022  
to October 2022

**Al-Shihr District**, Hadhramaut Governorate  
**Ataq District**, Shabwa Governorate
